CONTENTS

1. Introduction	1
2. Demons in the Garden of Eden	5
3. Down the Invisible Tidal Wave	16
4. Dragons Fear the Frequency of the Higher Principles	25
5. Cetaceans Have the Ultimate Weapon	31
6. A Brief History of Cetacean Involvement in Warfare on Earth	39
7. Conclusion	49
Afterword	53

READER REVIEWS

“This latest Auriga book offers a bold new perspective on the controversial subject of an Alien Invasion. Alien presence on earth is presented as ranging from benign intervention to predatory oppression depending upon the species in question. Showing Reptilian Aliens to be an ominous threat to humanity against which we must join forces and rebel, other higher dimensional Aliens are announced as benevolent invaders having secretly infiltrated humanity to help free this planet. An intergalactic war would, therefore, be playing out on the battlefield of planet earth.

“To the difference of many other books on the topic, this work is the first I have encountered which integrates the complexities of multidimensional physics and correlates historic information pertaining to disincarnate entities from the ‘spirit world’ with the physical entities interacting with us in our own time space. Indirectly, this addresses the related issue of angelic or demonic possession, whereby humans or aliens might become hosts to another entity much like in the science fiction movie, *Avatar*.

“Along with its warnings to an unsuspecting human population, this book reassures the reader that all is not lost thanks to the presence of benevolent aliens seeking to help reestablish human rule over our home planet. They do not aggressively possess humans as hosts, but instead incarnate on earth as humans, being born into the population as rather exceptional infants. Those who remain undetected by hostile aliens and survive to adulthood then carry out aspects of the battle plans, partly in the form of spiritual warfare, being only partially conscious of their role so as to remain stealth.

This brings to light that not all whom we perceive as humans are entirely human. Some might come from elsewhere in human form, whereas others might come from elsewhere as disincarnate souls and incarnate in human form, seeming to all to be entirely human until their true nature is revealed. This fascinating book develops many new aspects of the Alien Invasion while answering as many questions as it raises. A must-read for any serious ufologist or investigator of Alien phenomena.”

~ R. Oren, Economist

“*Alien Invasion* is a succinct 56 pages that explains a number of things normally considered incomprehensible.

“The values are clear. Hodges expresses what many spiritual leaders embrace: universal peace, gentleness to all life forms, non-linear time, self as an

energy body inhabiting a physical body, etc.

“Clarifying the corporate takeover of our lives, the book gives details for improving quality of life. It suggests ways to reverse negativity, to grow the positive, to live humanely and well.

“Beyond that, Hodges’ channeled information agrees with many experts who believe aliens exist and present a hazard to earth dwellers.

“Interesting, informative, well-written, *Alien Invasion* is a page-turner for readers to devour in a sitting, leaving them wanting more!”

~ Ariele M. Huff, Author of *The Perks of Aging: Blessings, Silver Linings, and Convenient Half-Truths* and *The Queen of Mean, The Conversion of a Cold and Prejudiced Heart*

“A fascinating and thought-provoking view into the possibility the human population of planet Earth are currently under a stealth attack by a clever alien race. According to the author, this alien race of Reptilians with superior futuristic technology are here on Earth right now. They intend to take over and control human affairs while they shift the human psychic and spiritual matrix into a lower frequency. Is this part of a larger mission, to hold back the human race from higher spiritual development and force everyone into a peasant class of working slaves? I suggest anyone with an interest in alien invasion theory, research or investigation may benefit from the information

presented inside this book.”

~ Michael Adair, Author of *Forbidden Secrets of the Illuminati: The Luciferian Deception*

“In this interesting and compact work, Wuono describes to us his role in helping the people of the Earth...Whether you believe what is written in this book...as being literally true or not, I hope that it makes readers consider a ‘larger reality’ – and how they may choose to play a part in that reality.”

~ Andrew Johnson, Co-Author of *911: Finding the Truth*

“Whatever you think of Reptilians and aliens, and whether you take it as fiction or non, this book is a real look behind the curtain at what it happening in the world today and why.”

~ Jeff Daugherty, Author and Radio Show Host

①

INTRODUCTION

My name is Wuono. I come from a planet called Lukr in the Zeta Reticuli star system (we call it *Ceta Reticuli*). My race is called the Cetaceans. We are similar to the Greys, but we are more advanced spiritually and technologically. We are a race of benevolent beings who care deeply about others. We will even sacrifice ourselves to save others.

We have come to Earth because your planet is being invaded by hostile alien forces. Cetaceans are concerned Earth will fall to the dangerous and vicious Reptilians. Demonic beings inhabit the body-forms of Reptilians. We want to help humans overcome Reptilian tyranny. I came here to help defend the inhabitants of this planet from the onslaught of the Reptilian forces. Many humans are unaware that they are even under attack, which

puts them at a distinct disadvantage. Reptilians have hidden the knowledge of their existence from humans because it is easier to control and manipulate people who are in the dark about their presence on the planet. Cetaceans feel humans have a right to know what is happening to them.

The alien invasion of Earth is ongoing. Other alien races besides the Reptilians are invading, but they are benign in comparison. For example, the Cetaceans have technically “invaded” the planet, but we will leave as soon as the Reptilians are gone.

The idea to just wait and see if humans were strong enough to ward off demonic attacks was tried out at first. Unfortunately, the Reptilians could easily overpower the people with their superior technology and firepower. Cetaceans decided to step in because the balance of power was so out of whack. We regret having to come to your planet, but we felt it necessary to stop the demon-possessed Reptilians from using Earth as a staging area for further conquest. In our culture, it is wrong to meddle in others’ affairs. In this case,

however, we felt it justified because there was some concern that the Reptilians would colonize the entire galaxy, if no one stopped them. If that were to happen, then our ability to improve the situation would be completely overwhelmed.

Cetaceans have infiltrated both the human and Reptilian ranks by assuming the body-form of each respective species. Cetaceans are scattered about the populations in order to act as agents of the Creator. Cetaceans try to influence others to align themselves with Creator.

The Prime Directive dictates that we may not impose our will on others, even if it is for the purpose of doing good. The free will of others must be respected, so we influence others by our words, deeds, and actions. Depending on the planet, we assume different roles. On Earth, we take on the function of teachers, musicians, visual artists, and healers most often.

Reptilians are determined to turn this planet into a refuge for fallen angels who have rebelled against Creator. Should they succeed, Earth will become inhospitable to its current inhabitants –

human, animal, and plant. I will tell you how to stave off such an unfortunate eventuality. I hope enough people will take heed and recognize the very precarious position in which the Earth currently finds itself.

This book addresses the current state of affairs with respect to the Reptilian invasion and Cetacean push-back. The aim of this book is to inform those daring to believe the information of the deadly threat facing all life-forms indigenous to Planet Earth. I urge you, the reader, to bear in mind that much has been hidden from you in the past. Now is the time for humanity to awaken from its slumber and face the dragon in the room.
